

Rockwell Part

Rockwell Parts - The business of AxleTech International is a big supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for quality, service, technology and delivery. They believe in working in an environment that encourages the utmost integrity with empowered collaboration, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They put great emphasis on being an environmentally conscious company and offering a safe atmosphere for their staff to work in. In addition, they have applied a lot of programs in the corporation in order to help articulate these values within their business policy. AxleTech gladly shares this policy and welcomes interested parties to provide them with whatever comments or questions, because they are happy to share and promote this policy with a greater understanding of their efforts. They are really devoted to improving and preserving the natural world. AxleTech has an EHS program that not just protects the natural environment but which even actively protects their neighbors and employees too.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles meant for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech specially designs axles to meet particular application demands. They have over 1000 various axle specs within their present offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle requirements. The business is well known in several commercial and military applications. They provide complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have extra details that can be found in the "ISAS" product collection.
