

Clark Forklift Part

Clark Forklift Part - Performing globally, there are at this time 350,000 Clark forklifts and lift trucks in operation, with upwards of 250,000 of those in service in North America. Clark has five main lines of forklifts across the world, making it one of the most expansive organizations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 particular parts built for 20 unique models of lift trucks and automated equipment. Your local Clark Supplier is your total source for availability of all your components requirements supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very amazing worldwide support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing safety features such as the operator restraint system. This exceptional dedication to safety is currently a standard feature on every forklift.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for every one of their manufacturing plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any number of environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the extremely economical and advantageous system of "Lean Manufacturing" for its assembly facilities and application of resources. This system was established to acknowledge the most successful approaches of manufacturing facility stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to develop the efficiency and excellence of their merchandise while minimizing costs. The new value engineering program combines innovative product improvement and offers superior client support and service within the industry.
